## Council is warned water saturation problem worsening

By Katy Wood

The dwindling saturation area in Terrace Park was brought to the attention of Council at both January's and February's meeting.

For the second time in two months, Council was alerted to the situation, this month by Building Inspector William Fiedler, and last month by Village Engineer George Kipp. Both referred to the increased size of new houses recently built in the neighborhood, reducing the area where water can drain. They also noted that, following the big rain in December, it took longer for water to drain, a day and a half in

some spots, than it had ever taken before.

Mayor Startzman directed Mr. Fiedler, Mr. Kipp and Dan Keefe, chairman of the Planning and Zoning Committee, to meet and discuss the situation. When asked later about the issue, Mr. Keefe predicted that a study of water run-off in the Village would most likely result in a recommendation for storm sewers.

"Residents are resistant to the idea of storm sewers because of the cost," said Keefe. "The initial hook-up could cost up to \$5,000 per household."

Because Terrace Park is built upon a thick layer of gravel, the Vil-

lage has been able to remain one of the few communities capable of relying entirely upon septic systems. But, as described by Mr. Fiedler, big, new houses are "pressing on our blotter."

When asked if there are other alternatives to storm sewers in Terrace Park, Keefe replied, "Either storm sewers, or establish an architectural commission which would determine the conditions for [building or] adding on to a house." Mr. Keefe added that the Planning and Zoning Committee also intends to address the zoning code for setbacks, currently determined by "an archaic formula."

### "Super Tuesday" is March 7, 2000

Terrace Park residents have two good reasons to vote: the Ohio Presidential Primary and the Mariemont School District Bond Issue.

Polls open at the Community Building at 6:30 a.m. and close at 7:30 p.m.

Don't forget to cast your ballot!

## Little Miami Bike Trail discussions continue

By Katy Wood

An update on development of The Little Miami Bike Trail was provided by Julie Rugh at Council's February meeting. Mrs. Rugh recently met with two state officials from departments dealing with recreation and land management.

The state has made it known in the past that, while they have the right to develop the trail through Terrace Park, they would prefer to work cooperatively with the Village. Council has been discussing how Terrace Park might best respond to this offer in light of Hamilton County's plans to develop a trail that would connect Avoca Park (just south of here) with the Lunken Field bike trail. Mrs. Rugh pointed out that when this project is completed, the bike trail would be continuous from Lunken Field to Xenia, OH with the exception of the small section through Terrace Park.

"I don't feel that not paving the trail through Terrace Park would stop people from using it as it is, or just riding through the Village," said Mrs. Rugh.

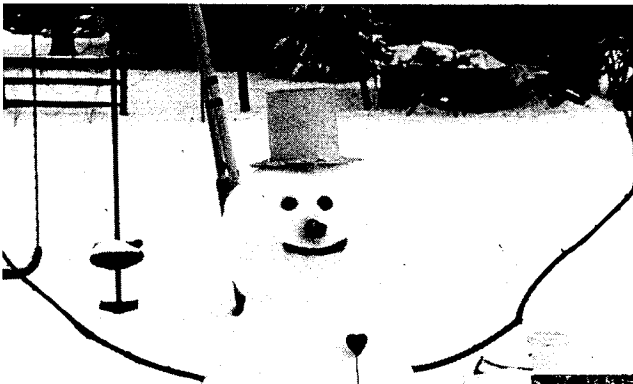

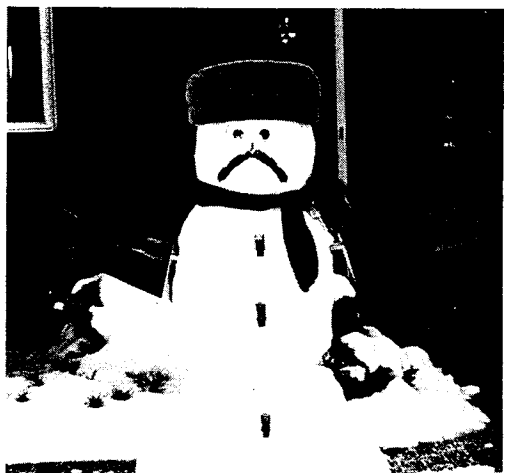

Council has endorsed Mrs. Rugh's proposal to continue conversations with state officials, who intend to update their mas-

ter facilities (i.e., restrooms and parking lots) plan soon. "We want to make sure that they provide ample restroom and parking facilities outside of Terrace Park," said Mrs. Rugh. She will also request the provision of fencing and landscaping that would serve as a barrier between the trail and the property of residents, and limiting trail entrances and exits within Terrace Park.

Other Council business included the following:

- Building official William Fielder submitted an annual report indicating that in 1999, 89 building permits were issued for projects with the combined value of \$3,663,850
- Council agreed to allow "Run For Your Life", a Hoxworth Blood Center sponsored race, to include Terrace Park streets as part of its course. The race will take place on April 29
- Council passed a resolution to re-employ Robert Malloy as legal counsel
- Jack Brown reported receiving positive feedback regarding snow removal services from the maintenance department

## Trash or Treasure?

"Terrace Park Roadshow" comes to Garden Club on March 14

Have you ever wondered about a beautiful old vase you found in your grandmother's attic, or a clock that has been in your family for years, or an old piece of pottery you picked up at an obscure antique shop in the country? How old is it? Where was it made? Is it valuable?

Now your questions can be answered on March 14 at noon, when the Terrace Park Garden Club features Terrace Park resident and auctioneer, C. Wesley Cowan,

at their monthly meeting. Mr. Cowan frequently appears on the popular PBS program, "The Antiques Roadshow", where he appraises American historical antiques. At the Garden Club meeting, each member or guest is invited to bring one item for discussion. So, start digging up those treasures in your attics, closets and china cabinets and join the fun. The community is invited - please call Marilynne Chapman @ 248-4705 with your reservation.

## Letters to the Editor

Dear Residents of Terrace Park:

The Mariemont City School District is seeking passage of a 2.23 mill bond issue on March 7 which will generate \$8,016,000 for a comprehensive building and renovation program.

A committee appointed by the board of education in 1998, assessed the school district facilities. Committee members visited other schools, consulted experts, interviewed administrators, teachers, parents and students before presenting their recommendations to the board of education.

Tom Crosby, principal of the high school and chair of the committee, stated that the committee believes the recommended renovations and improvements will positively impact the education of our students, protect the assets of our school district, and improve safety and security.

Projects impacting the areas of academics, arts, Americans with Disabilities Act Requirements (ADA), athletics, energy conservation, growth, infrastructure, safety, security and technology are to be funded through this initiative. The bond issue will benefit each school and every student in the district.

The bond issue will enable us to install phone and intercom systems in every classroom, improving safety and security throughout the district. Needed classroom space in the junior high will be reclaimed by relocating the Board of Education offices. Roofs and boilers will be replaced. Handicapped accessibility will be improved with the installation of elevators and lifts.

Included in the improvements for Terrace Park Elementary will be increased electrical service, an updated fire alarm system and a new boiler. The lower level restroom facilities will be reconfigured to allow for use during school and community functions. The ceiling throughout the "new" wing will be removed, as it does contain some asbestos.

Due to the scope of the projects, the board determined that a bond issue was the appropriate funding instrument. Renewing the 1995 Permanent Improvement Levy would not have provided enough dollars to fund these improvements. (This levy expired in 1999). The Mariemont Board of Education members and I believe that this bond issue will enhance and strengthen our educational programs. It will help us maintain the high level of quality residents expect while providing an exceptional value for tax dollars.

A major portion of the funds will be used to make improvements to the high school. Outdated science labs will be enlarged and upgraded to provide students with a state-of-the-art learning center. The high school addition accommodates classroom space, a technology center, meeting room, storage and a visual art classroom. Wherever possible, additional walls, doors and windows will be added to provide a more traditional classroom setting. The heating and air conditioning system will be replaced and sanitary sewer lines added for future use.

Our high school was constructed prior to the expansion of girls' athletics. Currently, more than 50 boys' and girls' teams require practice facilities. The multipurpose facility will house an auxiliary gym, additional locker and shower rooms, a training area, coaches' offices and refurbished restrooms.

The proposed work would begin shortly after the bond issue passes and should be completed in approximately three years. The construction management team will determine the building and renovation schedule. Priority will be given to critical infrastructure needs, and safety and security improvements. We plan to accomplish this work with as little disruption of our educational programs as possible.

The board and I believe that this plan attains our goals while being fiscally responsible. Our students continue to excel in academics, arts and athletics. We are pleased that Mariemont is one of 14 districts of 611 in Ohio which has been named an "Effective" school district. This plan will benefit our educational program now and in the future.

We would like to express our thanks to the many volunteers who are working to publicize the bond issue. Campaign leaders in Terrace Park are Erin Rosson and Joddy Perry.

We appreciate the support that you have always given our schools, and we ask for your continued investment in excellence. Thank you.

Sincerely,  
Gerald F. Harris, Ph.D.  
Superintendent of Schools  
Mariemont City School District

Dear TP EMS, Police and Firefighters,

It was a cold, windy night in Terrace Park at about 4:00 a.m. CRASH—down came a huge tree in our front yard, off went the electricity. The wires were down, the phone was dead, the kids were freaking out, we were calm. We found the cell phone by candlelight and called 911.

Within just a few minutes, we had more police, fire trucks and life squads in front of our house than are at the Labor Day Parade.

A big, huge thank you from us to those of you who crawled out from 'twixt your flannel sheets to help us out on a cold, windy night in Terrace Park.

Sincerely,  
The Hesser Family  
801 Miami

Letter to the Editor:

My thanks and trust goes out to the Fire Department. I have lived in TP since the early 70's. I have used the Fire Department two times and have been extremely grateful and confident each time. In 1987 I had a car catch on fire on Christmas morning. As the Village was having breakfast and opening Christmas presents, the Terrace Park Fire Department was at my house, putting out a car fire. The firemen pushed the car out away from the house in case there would have been an explosion. As they were risking their own lives to help me, a fireman suggested it was a faulty muffler that caused the fire. I was grateful for the information as I just had a new muffler put on the day before! I think we are blessed to have such a dedicated and knowledgeable Fire Department.

To the Residents of Terrace Park:

A huge thank you from the bottom of our hearts for your prayers, love and support! Your encouraging words helped us keep going through a difficult time. Olivia has made great strides forward. She is back at school and continues to improve daily. We are so fortunate to live in this neighborhood and to be blessed with so many wonderful friends.

Sincerely,  
Beverley, James and Olivia Cooke

Dear Neighbors,

A special thanks to all the dog lovers in and around Terrace Park. Our dogs Axl and Sweetie were in love and, while we were out of town, ran off together on Christmas Eve (ironically while their new fence was being installed). Our thanks go to the TP Police, who have often rescued our dogs in the past, the TP Post Office, Gisela Lock and the Ryall family. Once rescued, Axl was taken in and cared for beautifully by the Finnigan family. It was nice to know he behaved well and remembered his manners while away from home.

Last, but certainly not least, a very warm thanks to Lizzie Ballinger and her family. They posted "Lost Dog" bulletins in the Village and kept in touch with us every day we were out of town. We will always miss Sweetie, but we have been to the Clermont County Animal Shelter, and now Axl has a new playmate named Scout.

Again many thanks,  
Patricia and Rollins Burnam

# HELP FOR PARENTS!

In 1996, Congressman Rob Portman organized the Coalition for a Drug Free Greater Cincinnati, to mobilize every sector of our community to take an active role in preventing substance abuse. The Parent to Parent training program is the

parental arm of this program. PTP's purpose is to teach parents how to talk to their children about substance abuse, and what to do if their children have a problem with drugs or alcohol.

## PARENT TO PARENT WORKSHOPS

Learn how to:

- Put yourself in the way of your children and drugs/alcohol
- Become aware of warning signs of abuse, even before it occurs
- Remember the difference between children and adults
- Develop clear expectations for your children
- Communicate with your children on a level they will understand
- Spend time efficiently to create more time for your family
- Deal effectively with drug/alcohol abuse should it occur

## COSI on Wheels Visits Terrace Park Elementary

Terrace Park Elementary students felt good vibrations when the Ohio Center of Science and Industry (COSI) brought the science of sound to their school. Students, teachers and parent volunteers had the opportunity to learn the four components of sound - pitch, rhythm, volume and timbre - are manipulated to make different sounds and types of music. Through hands-on activities, COSI allows students to explore the world of sound.

COSI is based in Columbus, Ohio. The COSI On Wheels program travels throughout Ohio and surrounding states to schools and special events to further first-hand, meaningful science learning experiences.

Terrace Park Elementary 6th Grade

The annual Father/Daughter Square Dance took place on Saturday, February 5 in the Terrace Park Elementary gymnasium. Not only was it father/daughter, but grandfather, brother, uncle, or even twin sister square dance. The Sixth Grade Girl Scouts were the sponsors, while the dance caller, Sharon Murphy, kept everyone on their toes. There were eighty - eight people there, which included Girl Scouts and American Heritage Girls, first through sixth grade, and of course their partners.

# The Terrace Pod People

By McKenzie Bell  
Terrace Park Elementary 5<sup>th</sup> Grade

I have some great news!!! The Pod People were back in Mariemont for two performances in the year 2000! I went to the Sunday show on February 13. It was a fun-filled show with loads of Terrace Park faces, such as Kelly Baird, Ashley Hunt, Carrie Porter, Shani Hadjian, Lindsay Deeter, Chelsea Albrecht and many, many more.

The Pod People's theme was an argument over whether the show should be about year 2000 things, or a show with old songs and pieces from famous composers. People were holding auditions for the show. It all started out with a few songs from the famous musical *Cats*. A bunch of High Schoolers dressed up and performed like a bunch of cats. It was great!

The next act I liked was when Kelly Baird, Ashley Hunt, Kendall Miller and Carrie Porter did the song "What a Girl Wants" by Christina Aguilera. I love that song, and the girls' moves were great. The next performer is an excellent singer. Shani Hadjian sang in the Terrace Park talent show almost every year that she was in the Elementary School. She sang a piece called "Journey to the Past." The best performance of the entire show was by all the coaches of Mariemont and Fairfax schools. They did a number patterned after *Lords of the Dance*. It was unique and funny!

The show was filled with many more surprises, too. I never knew our own Mrs. Randall is a such great singer, as well as musician and violin teacher. I loved hearing her sing as well as play her violin. I am so glad we have at least two more years to hear Lindsay Deeter sing, because she is a sophomore. That

is a good thing because the audience adores her!

While I enjoyed every act and the entire show, the last one I will mention was the final act of the program. It was the Enrichment

Choir, directed by Dr. Kloth. They had a clever way of making people want to donate money to the Fine Arts Association. I am sure they raised a lot this year, because it was a great show.

What these girls want is an audience! From left to right, back row: Kendall Miller, Ashley Hunt and Carrie Porter. In front: Kelly Baird. All the girls are 7th graders at Mariemont Junior High and are from Terrace Park, except for Kendall who lives in Williams Meadows.

## Space Derby highflying event

The 2<sup>nd</sup> annual Pack 97 Space Derby took off with speed on January 9. Fifty-five Cubs and Webelos participated in this stellar event, organized and conducted by Chairperson Dennis Kokoruda, with assistance from Debbie Kokoruda, David Delano, Tim Fening, Annie Bauer, Riley Humler, Stefan Olson, Demian Humler, Jim Muennich, John White and Keith Gropp, with the Cubs and Webelos building and racing the rubber-band driven spacecraft.

Speed winners in the 65 hotly contested heats included: Tim Sattergren, Christian Lehman, Nicki Paz and Joey Fening (Tigers Group A); Brian Austin, Colin Delano, David McCormack and Tim Purcell (Tigers Group B); Robert Wood, Alex Wilson, Will Portman and Michael Srofe (Beth Srofe's Den); Dillon Wilson, Jonathan Doran and Taylor Frohmiller (Sandy Brendamour and Sue Doran's Den); Hank Powell and Jack McKeown (Brent

Powell's Den); Jed Portman, Arthur Wood, Matthew Weigel and Austin Fisher (Mike Seeley's Den); Grant Koszycki and Sean Stirsman (Jerry Koszycki's Den) and John Austin, Mickey Humler, David Dillman and Evan Kokoruda (5<sup>th</sup> Grade Webelos).

Best Paint Job awards went to Nick Stirsman, Austin Kokoruda, Brian Campbell, James Cook and Peter Muennich. The Best Designers were Wes Wooddruff, Grant Hesser, Connor Carmen, Lennie Cottrell and George Myatt. Unique Spacecraft awards were presented to Jeffrey Jackson, Connor Cohan, Mikhail Torru and Chris Egasti. Runner-up awards were also made in each of these categories. A special thanks again to Dennis and Debbie Kokoruda for all their hard work on this event!

Since all Space Derby craft are kid-created, next year's race may include a special section for dads alone to test their designing and racing skills. To Infinity and Beyond!
